

Qualification Criteria

for Diagnose.me Specialists

Introduction

Diagnose.me aims at facilitating high quality medical opinions. Clients consulting Diagnose.me specialists must be guaranteed that the second opinions provided are of the highest quality.

Being able to be part of the international Diagnose.me expert group should be an honor for medical professionals as it will be a recognition of their international good reputation and ability to adhere to high quality standards. Diagnose.me Medical Advisory Board is responsible for the selection and admission procedure of medical professionals.
